

**LIFE YEAST- LIFE16 ENV/ES/000158**  
Recycling brewer's spent YEAST in innovative industrial applications

Networking	
Acronym	LIFE YEAST
Full name of the project	Recycling brewer's spent YEAST in innovative industrial applications
Contract number	LIFE16 ENV/ES/000158
Project partners	BDi Biotechnology, AB InBev nv/sa and VLPbio
Lead partner/Coordinator	BDi Biotechnology
Summary of the project	LIFE YEAST aims to develop a new methodology to process (hydrolise) BSY into valuable constituents that can be used as raw materials with high market value in a wide range of industrial applications. The constituent parts include customised yeast extract (CYE), yeast cell wall (YCW), partially autolysed yeast (PAY) and bioactive peptides.
Duration	01/07/2017 – 30/06/2019
Beneficiary's country	Spain and Belgium
Budget	Total project budget: 3,786,356 € EU contribution: 1,597,653 €
